Research shows that 25% of customers who try will buy

100 customers per tester
= 25 customers x R309
= R7725 x 22%
= R1699.50 potential earnings

- The **Privé Tester 30 ml** is the perfect opportunity to get more people to fall in love with the fragrance! This **bigger size** is **much better value** than individual samples, as it allows far more customers to test the fragrance.

- Any thick paper, thin cardboard or a piece of ribbon can be used for **blotters**, but **spraying on skin** is still the best sampling method.
- Trying is buying**, so include a **blotter or ribbon sample** with your customers' orders to entice them to trial.
- Don't forget to **use a tester** at recruitment & prospecting sites.
- Become your own advert** of the scent by wearing Privé yourself.

HOW TO APPLY FRAGRANCE

- Store fragrance in a **cool, dry place** with a steady temperature, not a bathroom.
- Pulse points**, like **wrists & neck**, emit more heat, which helps to develop & maximise scent.
- Don't rub wrists together**, as it can interfere with the scent & dull the fragrance.
- Apply fragrance on **dry skin** after showering or bathing when skin is clean & pores are open.
- Spraying fragrance directly onto clothing can stain; rather **spritz it in the air & walk through** the mist.
