YOUR GUIDE TO GORGEOUS SUMMER SKIN

With a few simple considerations & product switch-ups, you can keep your skin dewy & gorgeous all summer.

As the season changes, so do the needs of your skin. Whether you're taking some time out poolside or working in an air-conditioned environment, the change in temperatures, humidity & exposure to the elements may mean your usual skincare regime needs to be adjusted to restore its natural balance.

Here we address a few of your summer skin concerns & recommend products to get that summer glow.

SEE
PAGE 95 TO
FIND YOUR
SOLARTEC™
PRODUCT

Give your family the broad-spectrum UV protection they need this summer by being SPF-wise & staying sun-safe

☀️ PREVENT SHINE

If you have oily skin, the humidity & increased temperatures could exacerbate the problem. Using a skincare range formulated specifically for oily skin, like **Justine's Oil Control range**, can help combat these problems. (shop on pages 96–97)

Micellar water is a gentle cleansing option that is effective in removing dirt, make-up & oil. Its dual function clears pores & tones skin. The **alcohol-free formula** will **soothe & hydrate even sensitive skin**. Try **Justine Essentials Micellar Water**. (shop on page 94)

☀️ KEEP SKIN HYDRATED

Exposure to the sun, chemicals in swimming pools, salt water & air conditioning can all strip your skin of moisture, leaving it feeling tight & looking flaky. Consider changing up your moisturiser to a more easily absorbed version & use purpose-made products that add a moisture top-up as needed, such as **Essentials Hydro Surge** (shop on page 94), a cooling gel that provides a hydration boost for up to **24 hours***.

☀️ EXFOLIATE

Remove dead skin cells so your products are absorbed effectively & your skin tone is brightened. Try **Justine's Oil Control Anti-Blemish Facial Scrub**. (shop on page 97)

☀️ SUN PROTECTION

Suncare is an essential part of your daily skincare routine in order to help prevent skin cancer & to protect your skin from the **UV rays** that cause premature ageing. The **Justine SolarTec™ range** (shop on page 95) has a variety of products suited to both face & body.

Apply suncare after your day cream or body lotion, & at least **15 to 30 minutes** before sun exposure

*Based on a clinical study.
