Give your family the broad-spectrum UV protection they need this summer by being SPF-wise & staying sun-safe

☀️ THE SCIENCE BEHIND SUN DAMAGE

- UVA rays penetrate skin's deeper layers, break down elastin & collagen, & trigger premature ageing
- UVB rays cause sunburn, skin discolorations & skin cancer, & are reflected off sand & water, so extra precautions should be taken this summer
- Sun damage accumulates over time because UV rays damage the DNA of skin

☀️ THE BENEFITS OF USING SOLARTEC™

- Minimises the penetration of UV rays into the skin
- Helps prevent sunburn, redness, peeling & sensitivity
- Helps prevent sunspots, allowing you to maintain an even skin tone
- Helps protect skin's collagen, preventing premature wrinkles & sagging
- Helps repair past sun damage

☀️ WHY USE A DAY CREAM WITH SPF

- A day cream with SPF is a skincare staple
- It provides skin with a protective barrier
- It provides an anti-ageing function by preserving collagen & preventing wrinkles
- It reduces your risk of developing skin cancer
- All our day creams contain SPF

Apply suncare after your day cream or body lotion, & at least **15 to 30 minutes** before sun exposure
